# Malbis Nurseries

POST OFFICE  
DAPHNE, ALABAMA

WHOLESALE ONLY

FALL 1949 - SPRING 1950

TELEPHONE:  
MOBILE, ALA.—MALBIS NO. 3

SHIPPING POINT: LOXLEY, ALA.

EMANUEL LAMBRAKIS  
MANAGER

We Are Located 12 Miles East of Mobile Alabama,  
on U. S. Highway 90 Through The Bankhead Tunnel.

## TERMS AND CONDITIONS

**PRICES** named in this Trade List apply only to orders placed by nurserymen, florists and dealers.

All prices are F. O. B. our Nursery and are subject to change without notice.

**TERMS:** All remittances must be made by money order, cashier's check or certified Check. Such compliance will insure immediate shipment of orders. If remittance is made by personal check, order will necessarily be delayed until the check has cleared. If remittance by personal check is desired, as a routine procedure, arrangements for their acceptance can be made upon a satisfactory bank investigation.

To properly rated firms, whose credit is established and approved by our credit department, we will extend credit accommodations with regular terms of NET 30 DAYS.

**NOTE:** Packing fee of 10 per cent on original invoice to be added on each order. If this 10 per cent is not included with your order we will be unable to ship stock until same is paid.

### WE DO NOT SHIP ON C. O. D. BASIS

**SHIPMENTS:** All of our plants are shipped B&B. Please state how you want your shipments made; whether by freight, express or motor freight. Please state routing desired. If shipment is requested by motor freight, advise name of the delivering carrier in your city. Where no instructions are given, we will ship as we think best without assuming responsibility. The cost and risk of transportation belong to the purchaser.

**CLAIMS:** All claims must be made immediately upon receipt of stock. While we use every means of prompt service, we will not be responsible for delays in transit. Our responsibility ceases upon delivery in good condition to the transportation company.

## SIMPLE HINTS INSURING SUCCESS WITH CAMELLIAS

When planting camellias select a well-drained semi-shaded place—complete shade is not advised. The hole for the plant should be double the width of the ball and at last two inches deeper.

The soil should be enriched by the addition of well-decayed dairy fertilizer. Put enough of this prepared soil in the hole to bring the grown roots about 3 inches below the surface. Be sure the soil is well packed around the roots, and water thoroughly.

Each spring give the plants a 2-inch mulch of well-chopped fresh dairy fertilizer. During the summer season plants should be mulched with oak leaves. Keep the soil moist, but not saturated—camellias do not like “Wet Feet”. General pruning must be done in February. Cut out all closely grown and dead branches.

Camellias may be attacked by red spider, which causes the foliage to brown. The pest may be controlled by spraying with “Volk,” Jr. or Bordeaux Mixture—either will give good results. Spray on cloudy days, as bright sun will cause the leaves to burn.

### GRAFTED CAMELLIAS

We are offering this year the following varieties of grafted camellias on 10 to 12 year old understock. This understock is vigorous and has not been transplanted or brought in from other sources.

#### TWO YEAR GRAFTS

	Priced Each
Admiral Nimitz .....	\$10.00
Arejishi .....	10.00
Big Beauty .....	10.00

**ANGELO COCHE**—The flowers are variegated of the peony-type. The plants produce blooms of excellent quality. Foliage is light green.

**B&B**

4 ft. Field grown, with buds ..... \$6.00

**COLONIAL PINK**—Peony-form blossoms, deep pink. Plants are very free bloomers.

**B&B**

4 to 5 ft. Field grown, with buds ..... \$6.00

#### **EASTER LILY WHITE**

**B&B**

6 to 7 ft. Field grown, with buds ..... \$15.00

**RED PRINCE**—One of the hardiest bloomers. Large, semi-double, scarlet flowers. Conspicuous golden stamens in center. Symetrical up-right growth. Free Bloomer, starts blooming in December, continuing through winter.

**B&B**

4 ft. Field grown, with buds ..... \$5.00

**LADY ALICE** or **ALOHA**—Peony-form, flowers deep red, produced late in the season. An excellent variety for cutting because of quality of bloom and sturdiness of the plant.

**B&B**

12"-18" Field Grown ..... \$2.50

**LADY DUNN**—Large peony-formed blooms of red, occasionally blotched white. Foliage light green, leaves long.

**B&B**

5 to 6 ft. Lath house ..... \$15.00

3½ ft. Field grown, with buds ..... 7.50

**LADY JANE GRAY**—This attractive seedling of Donckelaari produces large pink and white variegated flowers of very lasting quality that vary in form from almost perfect double to loose peony form.

**B&B**

3 ft. Field grown, with buds ..... \$20.00

**LASORELA**—Rose-form, red, white and pink, very rare variety.

**B&B**

3½ ft. Field grown, with buds ..... \$4.00

**POPE PIUS**—Large deep vermilion-red blooms are carried from mid-season until very late. A free blooming strong growing plant.

**B&B**

5 ft. Field grown, with buds ..... \$6.00

4 ft. Field grown, with buds ..... 5.00

**PRINCESS BACCIOCHI**—Large, peony-type carmine red, brilliant yellow stamens.

**B&B**

3 to 4 ft. Field grown ..... \$7.50

**RED CARNATION or ROSE EMERY**—Large, double, deep rose-colored blooms produced freely early in the season. Peony-form, fully flowered.

**B&B**

4 ft. Field grown, with buds ..... \$5.00

5 to 6 ft. Field grown, with buds ..... 6.00

**SARAH FROST**—A very popular deep pink or light red Camellia. The full double flowers are of medium size with four rows of outer petals and two rows of shorter central petals surrounding a cone of tight petals.

**B&B**

4 ft. Field grown, with buds ..... \$7.50

**SINGLE RED**—Similar to Kimberly.

**B&B**

..... \$3 00

**WARATAH or SPONGE**—Blood red, daisy-type flower.

**B&B**

4 ft. Field grown, with buds ..... \$5.00

# CULTURAL INFORMATION ON AZALEAS

Azaleas of any variety are easily grown if you follow a few suggestions on the culture of the plants.

Soil with an acid reaction is most favorable. Add a sufficient amount of leaf-mold or peat moss.

Poison is produced from a lime or alkaline soil. Previous to planting in such soil remove the original soil and add plenty of leaf-mold or peat moss mixed with soil which should contain no alkali.

Sufficient water is necessary to keep the roots moist, but do not let them stand in surplus water. Draining will be necessary.

Avoid a dense shade—better results are obtained from azaleas growing in partial shade. A lath-house is satisfactory.

You will find that azaleas do not require a great deal of commercial fertilizer, if plenty of leaf-mold or peat moss has been applied. A light fertilizer, as cotton seed meal, is a favorable process.

In some instances red spider and thrips injure the plants; spraying with sulphur will eliminate this trouble.

Azaleas can be moved at any time during the year, but we recommend they be moved before they come into bloom, that is, September through February. In doing this you will have the benefit of the flowers the first year. Also the plants will have become established in the ground before summer heat.

## AZALEA INDICA

This species of Azalea is a rapid-growing plant with masses of large, beautiful flowers. They are mostly adapted for landscape planting and for gardening especially along the Gulf Coast extending as far up the Atlantic Seaboard as North Carolina. To Mobilians, Azalea Indica is the pride of the city. No pruning is required after they are well established in their surroundings. It will be one plant that will be very complimentary to your nurseries and will be an advertisement in itself.

## AZALEAS
